

THE WOLF

The Wolf Token

\$ALPHA

A wolf is always better than a dog.

A Decentralized Meme Token created to lead the dog ecosystem.

As The Wolf community, we plan to move forward by adding introducing a different perspective to the dog ecosystem. Out of respect for the dogecoin that seeded initiated the Dog ecosystem, every Wolf token staker will earn doge coins on the stake. Also, 3% of our total reserves will be kept locked in developer wallets for 3-6 and 9 months.

We will send 5% of our the unburned reserve supply to the wallet reservedwe defined for The World Organization for Animal Health (OIE), to be released oin the 9th month following our presale period.

Community Tokens

The Wolf Token - \$ALPHA

The Wolf token is our the base currency which that allows investors to keep huge substantial amounts in their wallets. At the same time, Wolf token stakers will earn dogecoin, the first coin of the dog ecosystem. All they have to do for this is to keep the wolf ecosystem tokens in their wallets such as \$ALPHA and \$OMEGA.

Wolf token aims is on its way to reach international recognition coverage in noa very short time. Our telegram groups are led successfully in 12 languages, and growing fast. By leading the Dog ecosystem, the Wolfit presents a huge opportunity for investors those who missed out on being early-stage investors for of the ecosystem's other currencies such as, dogecoin, shiba, floki and akita.

Wolf Cub - \$BETA

With a total supply of ONLY 250,000 tokens (the approximately wolf population in the World), it represents the ecosystem's development stage. In addition, a special club structure will beis being created for Wolf cub holders and which will offer lucrative rewards for holders who maintain theirwith sustained liquidity.

Wolf Pack - \$OMEGA

Omega has a total of 332,000,000 coins. It is designed as a management token. Holders are the selective force of the wolf pack.

It is a governance token that allows the wolf pack to vote on future proposals, decisions and rules in the DAO.

THE WOLF APP

Once you enter our the Wolf ecosystem, you can manage everything easily on the Wolf app. Both the management system and the swap applications function will be included in our app. In addition, the club social network created for \$BETA holders will also be accessible from within the application.
